

20 FT EXPANDING ISO SHELTERS

Nordic Shelter AS offers truly innovative expanding 3in1 Shelters suitable for a number of applications:

- Different Medical purposes, mobile clinics, operating theatres, diagnostic units etc
- Command Posts
- Communications
- Training, simulation and briefing
- Kitchens
- Workshops
- Shelters can be joined together to form large rooms

The shelter offers 36m² (387ft²) interior floor space when expanded.

TYPE	Tare Weight in kilos	Payload in kilos	Gross Weight in kilos
20' 1C or 1CC	3 300	4 700	8 000

The container is CSC-Certified and complies fully to ISO 1496 and other relevant standards.

Power consumption to heat/cool the shelter is extremely low due to the high thermal insulation value of the sandwich panels applied in the shelter.

Full infrastructure and on-board support systems offered: Generator, ECU, overpressure, BC-filtration etc to meet any requirement/function. Separate Technical Compartment to accommodate support systems offered.
